

SYSTEM 4500

TILT-TURN, HOPPER, AWNING, FIXED

The System 4500 tilt-turn design offers builders and architects a very unique product for large openings in both residential and commercial markets. This versatile design is three windows in one: a traditional case-ment in the turn position, secure top ventilation in the tilt position and an elegant picture window when closed. Commercial AAMA ratings up to 100 can be achieved with these designs. Available in white or beige PVC, this system can also be laminated with solid color or wood-grain foils. Matching doors are also available.
